

The Center for Teaching Excellence
presents

Teaching Tools: Why Active Learning?

Students distracted in class?

Students sleeping in class?

Or students better understanding material and
developing higher cognitive capacities?

Active learning names any instructional method that requires student activity and engagement in the learning process. These methods can fit into anyone's toolbox. Professor Jeffery Nicholas (Philosophy) will extoll the virtues of active learning for students and instructors and suggest some easy steps for beginning to work active learning into your classroom.

Wednesday, February 24, 2016

1:30 – 2:30 p.m.

Feinstein 304

Refreshments will be served.

Please RSVP to ext. 1340 or cte@providence.edu
